

LET YOUR VOICE BE HEARD!

PARTICIPATE IN THE RALLY FOR MEDICAL RESEARCH HILL DAY

JOIN US
SEPTEMBER 12-13, 2018

Federal funding for medical research is critical to the health and well-being of our citizens and for the economic security and global leadership of the United States. Since fiscal year 2016, Congress has provided significant increases in funding for the National Institutes of Health (NIH), putting the agency back on a path of real budget growth. Congress has made medical research a priority and we must continue that momentum by urging robust, sustained, and predictable funding increases for the NIH in 2019 and beyond.

Join a broad coalition of stakeholders representing millions of patients and other advocates from the medical research advocacy community on September 12-13, 2018, for the next Rally for Medical Research Hill Day and help raise awareness of the urgent need for continued investment in the NIH to improve health, spur more progress, inspire more hope, and save more lives.
