LET YOUR VOICE BE HEARD!

Participate in the Rally for Medical Research Hill Day

September 18-19, 2019

Robust, sustained, and predictable Federal funding for medical research is critical to the health and well-being of our citizens, and for the economic security and global leadership of the United States. Most recently, our nation’s policymakers have made funding for the National Institutes of Health (NIH) a national priority by providing the lifesaving agency with total budget increases over the past four fiscal years (from FY2016 – FY2019) of $9 billion, or 30 percent.

While the recently reached bipartisan, bicameral budget deal provides us with an opportunity to continue the positive momentum for NIH funding, Congress and the White House still must pass spending bills to fund government operations for fiscal year (FY) 2020, which will begin on October 1st.

Therefore, please join a broad coalition of stakeholders who represent millions of patients and other advocates from the medical research advocacy community on September 19, 2019, for the Rally for Medical Research Hill Day. This is an opportunity to work together to help raise awareness about the importance of continued investments at NIH, which are vital if we are to inspire hope, spur progress, improve health, and save lives.

SCHEDULE

Wednesday, September 18

2:00-5:00 p.m. CAPITOL HILL DAY TRAINING SESSION
Top of the Hill Banquet and Conference Center, Washington DC

6:00-8:00 p.m. RECEPTION TO CELEBRATE MEDICAL RESEARCH
